City Regulator

To the Editor of The Eagle,

Suggestions are Made.

A hundred or more school teachers will nd a month in the city attending the institute. There are a number of places of interest in the city which, if they would visit and study, would not only widen their field of intelligence as pedagratues but would prove a source of gratlication to themselves. One of the great est inventions ever produced is the Mergentbaler finotype machines to be seen in the Eagle office. They are in operation, some of them, in the daytime, all of them at night, and can be seen by any one who will take the trouble to walk to the third floor of the Eagle office.

I hope the city won't make any mistake in the electric light business and stop the present lighting on the supposttion that it will be replaced in two weeks We can't afford to be without lights. It can be done in sections or districts, and the lighting continue without stopping.

Some people driving teams think that destrians or wheelmen have no rights on the streets which they are bound to respect. A footmun or wheelman has the Nime rights on streets and crossings as person with a team. Reckless drivers

The customian of the postoffice has a "No Loafing on These Steps." The other day I saw two fellows sitting and leaning up against the sign, completely covering it, and about a dozen Ether sleepy-heads perched around.

would not allow the street cars to leave the junction of Main and Douglas until five minutes after 12, noon. There are a number of people who don't leave their working places until 12, and they can't eatch a 12 o'clock car,

I would stop the ow'll casts and wagoris from being differn through the erreets nuless they had tight covers on them, and then I would positively forbid goem being hauled through the busy,

I are the Carey Hotel is not the only place that is tearing out their lumber four and putting in tiling. The Eagle, willing to be outclassed, has put in

If I were a member of the W. C. T. U., I would get some signs painted and posted. "No Spitting on the Sidewalk." There is still a chance for them to do something in a substantial way.
